

QUARANTINE

Quarantine pertains to someone exposed to COVID-19, separating them from others.

FOR UNVACCINATED OR NOT FULLY VACCINATED

Quarantine for at least 5 days from the time of exposure and monitor your symptoms.

Stay masked around others for 10 days from the time of exposure.

If symptoms develop, seek out a COVID-19 test. Follow isolation protocols if positive.

FOR VACCINATED

No quarantine is required for those up to date on their vaccinations (including boosters). Continue monitoring symptoms.

Stay masked around others for 10 days from the time of exposure.

A COVID-19 test is recommended 3-5 days from exposure. Follow isolation protocols if positive.

ISOLATION

Isolation pertains to someone who tests positive for COVID-19, separating them from others - even in their home.

FOR UNVACCINATED AND VACCINATED

Individuals testing positive for COVID-19 need to isolate, regardless of vaccination status.

ASYMPTOMATIC CASES

Isolation is observed for at least 5 days after a positive test. Stay masked around others through the tenth day.

SYMPTOMATIC CASES

Isolation is observed for at least 5 days from the start of symptoms followed by a 24-hour fever-free period without the use of medication and improvement of symptoms. Stay masked around others through the tenth day.
